HIGHEST QUALITY BRANDS

The Xtreme Turf and UBU Brands have been used in over 1600 installations in over 80 countries around the world. They are trusted brands for various sports and levels of play from youth leagues to professional.

FIFA SOCCER SYNTHETIC TURF STANDARDS

The FIFA Quality Licensee initiative ensures that artificial turf fields meet the highest standards in terms of quality, performance and safety according to the needs of the end user. Act Global uses FIFA benchmarks in its product development, quality standards and sport performance test methods.

Turf of America features indoor and outdoor synthetic turf surfaces for all use in a variety of sporting events and environments which include soccer, field hockey, baseball, football, front and backyards. Our turf is utilized all over the country from high schools, neighborhoods and communities.

- ✓ In 2016, UBU installed the game field at U.S. Bank Stadium (Vikings) and practice fields for the Titans and Bills.
- ✓ UBU is the synthetic turf supplier to the Mercedes-Benz Superdome, home of the New Orleans Saints. In a recent NFLPA survey, the Superdome field ranked 3rd.
- ✓ In 2012, Nike selected a UBU surface for Bo Jackson Field at their elite training campus and world headquarters in Oregon. It's currently used as the design premise for Nike shoe development.
- ✓ The 2013 and 2014 NFL Super Bowls were played on a UBU surface. The 2013 surface was donated to the NORD Foundation for the benefit of the children of New Orleans.
- ✓ The NCAA BCS National Championship game was played on a UBU surface in 2012. In fact, the NCAA BCS All State Sugar Bowl was played on a UBU Surface from 2011 – 2015.

Turf Systems

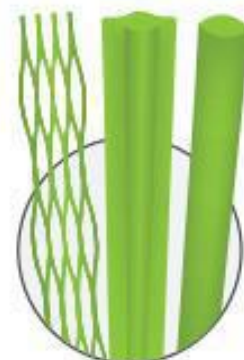

Performance GREATER than the sum of its parts.

**An exclusive blend featuring the most resilient yarns
available offers unrivaled durability and performance.**

By combining the most durable, high-performing yarns available, we have designed a synthetic turf system with unmatched resilience and playability. The exclusive *Xtreme Turf BDX* is composed of both monofilament and fibrillated yarns to encompass the key qualities of the two fibers. The resulting system is proven to play better and last longer, in even the most high-intensity sport applications.

EXCLUSIVE
TRI-FIBER
BLEND

SPORT APPLICATIONS

An **advanced fibrillated and monofilament blend** for superior performance, comfort and durability.

FB Global

FB Global is proven, through extensive independent testing, to be the most durable fibrillated yarn on the market. FB Global has the ability to reach 140,000 Lisport cycles before splitting.

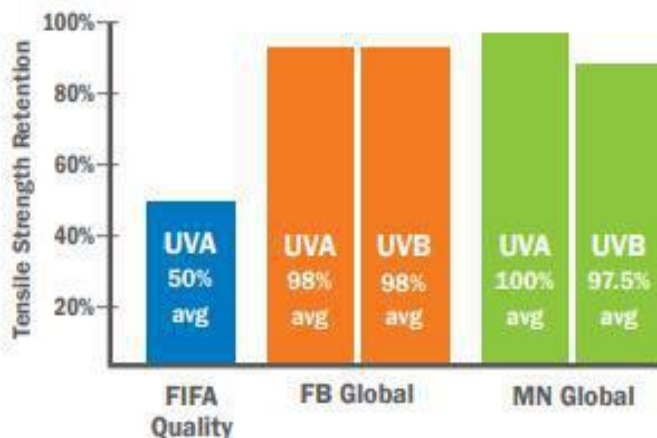

MN Global

The exclusive MN Global™ dual-diamond yarn blend is the most durable monofilament available, and outperforms other systems on a combination of measures.

Unmatched durability through weather and wear.

PERFORMANCE OF XTREME TURF FAR EXCEEDS FIFA QUALITY.

UV Weathering

Lisport Wear Testing

Xtreme Turf is found in over 1700 installations in over 90 countries. The system is installed over a suitable substrate in accordance with designs and specifications recommended by Act Global.

XtremeTurf™

Raising the bar for DURABILITY.

Presenting the most resilient fibrillated synthetic turf on the market.

Durability and field longevity are key concerns when considering artificial sports surfaces and maximizing value for field owners. *Xtreme Turf F* featuring the advanced FB Global™ yarns pushes the boundaries of durability, exceeding the Lisport testing of any other yarn on the market.

Although incredibly durable, *Xtreme Turf F* does not sacrifice player comfort. The innovative design resists degradation and splitting, while offering optimal performance, skin-friendliness and natural grass like appearance. This winning combination means *Xtreme Turf F* is an exceptional choice for high intensity indoor and outdoor sports field use.

XtremeTurf™

SPORT APPLICATIONS

Special Parallel Cut (FB Global)

Our special parallel cut yarn, FB Global, is proven, through extensive independent testing, to be the most durable fibrillated yarn product on the market.

Our FB Global Fiber Offers Xtreme Durability

UNRIVALED DURABILITY

- ✓ Ideal for high-intensity use
- ✓ Advanced UV stabilizers
- ✓ Maximize return on investment

RESEMBLES NATURE

- ✓ Natural appearance
- ✓ Looks great both indoor and outdoor

PLAYER PERFORMANCE

- ✓ Ideal traction and foot stability
- ✓ Optimal ball behavior
- ✓ Low abrasion for player safety and comfort

BETTER INFILL ENCAPSULATION

- ✓ Provides a stable and reliable playing surface
- ✓ Fibrillated yarn ensures infill material is encapsulated

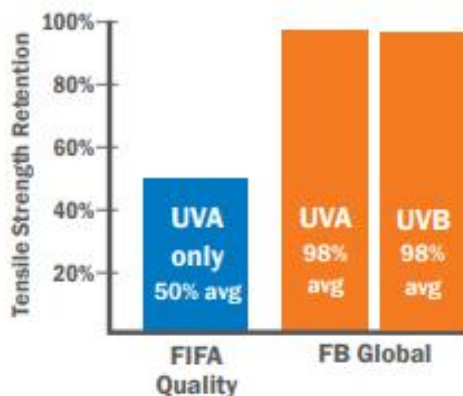

Endures the toughest sports and environmental conditions.

Xtreme Turf F does not sacrifice any key characteristic expected from a top performing fibrillated synthetic turf. The system offers outstanding durability in any circumstance—including heavy UV exposure, artificial weathering and heavy wear Lisport testing—when compared with others on the market. This ensures that sport pitches equipped with *Xtreme Turf F* will perform better and last longer to offer a tremendous value for a variety of sports, weather conditions, and applications.

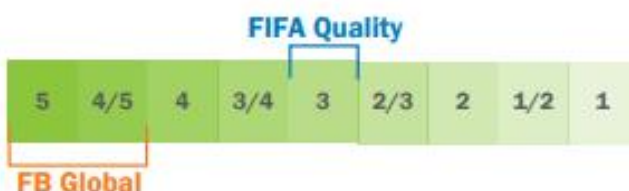

UV AND ARTIFICIAL WEATHERING

FB Global yarns were exposed to artificial weathering conditions and 3,000 hours of UVA/UVB exposure to test for tensile strength and color fastness. FB Global achieved excellent results on both criteria, and exceeded industry standards for **EN 15330-1, FIFA, IRB, STC and FIH.**

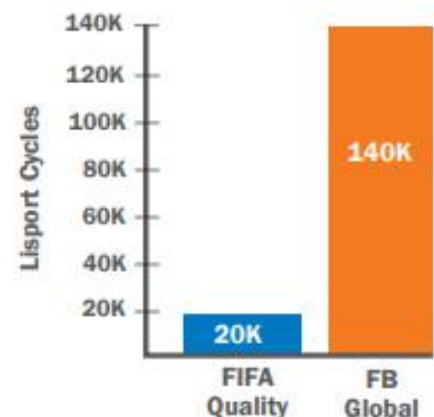

COLOR CHANGE GREY SCALE (3 passes)

LISPORT TESTING

FB Global yarns have been tested to reach **140,000 Lisport cycles** before splitting.

Xtreme Turf is found in over 1700 installations in over 90 countries. The system is installed over a suitable substrate in accordance with designs and specifications recommended by Act Global.
